Mandatory disclosure pursuant to § 289 c – e HGB	BMW Group Report 2023 7 Organisation and Business Model 7 The BMW Group Strategy				
Business model					
Integration of top management	 ¬ The BMW Group Strategy ¬ Cornerstones of the Strategy ¬ Performance Indicators and Performance Management 				
Risks	 ⊅ Environmental Analysis ⊅ Risks and Opportunities				
Connection to figures in financial statements	About This Report About This				
Environmental matters	A The BMW Group Strategy → A Environmental Analysis → Performance Indicators and Performance Management A Products A Production and Supplier Network A Risks and Opportunities → A Climate-related Risks and Opportunities				
Employee matters	 ¬ The BMW Group Strategy → Cornerstones of the Strategy → Performance Indicators and Performance Management ⊅ Employees and Society 				
Social matters	 ✓ Environmental Analysis ✓ Purchasing and Supplier Network 				
Respect for human rights	 Compliance and Human Rights Purchasing and Supplier Network 				
Combating corruption and bribery					
Mandatory disclosure pursuant to Section 8 of the EU Taxonomy Regulation*					
Disclosures regarding revenues that are taxonomy-eligible and taxonomy-aligned, capital expenditure (CapEx) and operational expenditure (OpEx)	⊅ EU Taxonomy				

^{*} Regulation (EU) 2020/852 of the European Council and of the European Parliament on the Establishment of a Framework to Facilitate Sustainable Investment, and amending Regulation (EU) 2019/2088, Commission Delegated Regulation (EU) 2021/2139, Commission Delegated Regulation (EU) 2023/2485 and Commission Delegated Regulation (EU) 2023/2485.

As of February 2024

Figures according to NEDC

CONSUMPTION AND CARBON DISCLOSURES

Disclosures regarding fuel consumption, carbon emissions and electricity consumption

Figures according to WLTP

The figures for fuel consumption, CO_2 emissions and power consumption are calculated based on the measurement methods stipulated in the current version of Regulation (EU) 715 / 2007. The information is based on a vehicle with basic equipment in Germany. Ranges take into account differences in wheel and tyre size selected as well as optional equipment and can change based on configuration. The figures have been calculated based on the new WLTP test cycle and adapted to NEDC for comparison purposes.

For vehicles that were newly type-approved on or after 1 January 2021, official figures are only based on WLTP. In the vehicles, different figures than those published here may apply for the assessment of taxes and other vehicle-related duties which are also based on CO_2 emissions. Further information about the official fuel consumption and official specific carbon emissions of new vehicles can be found in the "Manual on fuel consumption, carbon emissions and electricity consumption of new vehicles". \nearrow www.dat.de/co2
